#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. Claims 1, 2, 18 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,721,908 to Kim *et al* (hereafter "Kim").

Regarding claims 1 and 2, Kim discloses arrangements for interleaving and deinterleaving data for a turbo code decoder operating "on the fly" in accordance with plural standards (IMT-2000, UMTS, CDMA-200) and their plural bit rates. Kim shows interleaver logic (Figs. 7 and 10) based on a "preprocessor for preparing seed variables that vary according to the interleaving method of each of a plurality of standards and bit rates" (initial seed #0, #1, etc.) as shown for the cdma2000 standard at different rates (Tables 8 and 9) and for the UMTS standard at different rates (Tables 12 and 13), and an "address generator means" (mux 15, counter 19, comparator 222, adder 224) for "generating an interleaved address on the fly using the seed variables and performing an add operation" wherein the "add operation" is performed by Kim's Adder 224.

Regarding claims 18 and 19, Kim's low address portion and high address portion correspond to row addresses and column addresses, and by generating column addresses "on the fly," Kim generates addresses "column by column."

3. Claims 8-12, 15-17, 21 and 22 are allowed.

4. Claims 3, 4, 6, 7 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### Response to Arguments

5. Applicant's arguments filed 24 April 2007 have been fully considered but they are not persuasive.

Applicant suggests there is no adder in the disclosure of Kim. The rejection now specifies where an adder is found in the disclosure of Kim.

#### Conclusion

6. Applicant's amendment necessitated the new ground of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Application/Control Number: 10/775,763 Page 4

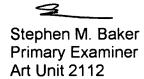

Art Unit: 2112

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Baker whose telephone number is (571) 272-3814. The examiner can normally be reached on Monday-Friday (11:00 AM - 7:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jacques H. Louis-Jacques can be reached on (571) 272-6962. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
